PROFILE

20 years in IT | 13 years in iOS | 11 years in Swift | 40+ iOS apps

I build native apps from the first prototype and help existing products become more reliable and easier to maintain. My work covers secure authentication, passkeys, complex integrations, image and video processing and app architecture. I also have experience delivering corporate training for development teams.

SELECTED EXPERIENCE

iOS Contractor

Independent / ios-engineer.com | 2012 - Present

Built native iOS products, image and video processing systems and reliable app foundations.

iOS Developer

Jenevive Health LLC | 2023 - 2025

Developed an MVP into a production-ready app and delivered 28 App Store releases.

Native iOS Developer

Rameez Mahmood | 2023

Built a camera-based prayer-counting MVP with on-device machine learning and handled App Store submission.

Objective-C iOS Developer

Penta Holdings Inc | 2023

Modernised an iPad app, migrated components to Swift and maintained automated tests.

iOS Developer

Konstantin Freiherr von Stein zu Nord und Ostheim | 2023

Built iOS and Mac Catalyst texture tools using Core Image and Metal, with iCloud project storage.

Senior iOS Engineer

Machina Technologies Pty Ltd | 2022

Evaluated technical feasibility, identified MVP risks and supported vendor discussions.

Dan Pashchenko

Independent iOS Engineer

EARLIER EXPERIENCE

iOS Developer

LANDMARKS ID PTY LTD | 2022

Maintained location SDKs and migrated their implementation from Objective-C to Swift.

iOS / Swift Developer

Medeloop Inc. | 2022

Implemented SwiftUI screens, restructured app architecture and built a ResearchKit MVP.

Lead iOS Engineer

MaxSold Inc | 2021

Took over an existing iOS app, improved stability and delivered major releases.

Project Coordinator / Project Manager

SoftServe | 2008 - 2011

Coordinated delivery, supported technical sales analysis and facilitated Agile teamwork.

Junior C++ Developer

AppriorIT | 2007 - 2008

Developed test infrastructure, maintained Windows driver code and investigated binaries.

EDUCATION

Bachelor's Degree in Computer Science

DNUZT, Dnipropetrovsk, Ukraine | 2005 - 2009

TECHNICAL SKILLS
